OTHER What if I already have a year-long membership/contract with a Gympass partner gym, studio or app? Gympass works with all of our fitness partners to provide the smoothest membership transfer process possible, but the process will vary from club to club on how they support the transfer from an annual/monthly membership to Gympass. Gympass is unable to grandfather in existing gym memberships, but please reach out someone at your current gym or studio to see how long you have left of your contract length and then reach out to a Gympass representative via the Help Centre to discuss when it

makes most sense to start your Gympass membership.
